

SEPTEMBER 14, 2022

PUBLIC MEETING FOR DISASTER MITIGATION

Lyndon and Lyndonville are updating their Hazard Mitigation Plan. This plan serves as a strategy for reducing current and future risks of natural hazards and climate change. The public is invited to learn about the Hazard Mitigation Plan and share their ideas for reducing impacts associated with natural hazards, such as flooding, winter storms and hurricanes. Approved by FEMA, the plan allows each community to apply for pre-disaster mitigation grant funding.

Planning
Commission
Meeting includes
Disaster Mitigation

September 14,
2022

6:00 pm – 7:00 pm

Attend in-person or via
Zoom – Details on
Lyndon Website

Share your ideas for
making Lyndon and
Lyndonville more resilient
to natural hazards such
as floods, winter storms,
and Hurricanes.
