Residential [] Commercial or Industrial [] Group Service [] Fire Protection []

Other [] Nature of Business: _____

of Family units: _____ Size of Building: _____ # of Employees: _____

Additional details: _____

Water Application Permit Fee is \$300.00 for residential or commercial building with a 3/4" water service.
Additional fees will be charged for lines larger than 3/4" in size.

Approval of this application creates obligations. The applicant understands and agrees to the following:

1. Permit fee of \$300 will be submitted to the Treasurer prior to connection to the municipal water system.
2. To pay all costs and expenses incident to the installation and connection to the municipal water system.
3. To maintain the building's water at no cost to the Village of Lyndonville.
4. That the costs in item 3 and any and all water use charges, if unpaid, become a lien upon the real estate as stated in the description below.
5. The applicant **must** give the Superintendent a **minimum** notice of 72 hours prior to commencing the installation process.
6. The applicant **must** install water meter(s) as part of the approved installation.
7. The pipe used is to be a **minimum** of 3/4" copper or CTS-SDR 9 (Blue Poly) rated @ 200 PSI with a solid copper tracer wire, stainless steel inserts, and copper compression fittings. The applicant **must** notify the Water Department Supervisor when the system is ready for inspection and connection to the Municipal water system, and **BEFORE** any portion of the work is covered by earth.
8. By choosing SDR 9 Blue Poly the Applicant acknowledges that they are responsible for their line if it freezes as the Village crew will not have the ability to thaw out a plastic water line.

- Before service is turned onto the residence, an inspection must be conducted by the Superintendent. The acceptable manner of installation is as follows: a ball valve, a pressure reducer, a WATTS #7 back flow preventer, a water meter and another ball valve. If the manner of installation is found to be unsatisfactory in the final inspection conducted by the Superintendent, water service can be denied until appropriate changes are made.

LIEN ON PROPERTY (Ordinances-Sec. 13)

"All water rents, rates and charges for material and labor due the Village in case of nonpayment thereof on or before sixty days from the time same became due and payable, shall be and remain a lien on the premises involved in the nature of a tax upon the real estate so supplied with water, materials and labor, whether such rents or other charges be billed in the first instance against the owner or occupant thereof. Such lien shall be enforceable in the same manner and to the same effect as the lien for taxes under the laws of this state."

ACKNOWLEDGEMENT & AGREEMENT

The undersigned hereby acknowledges the force and effect of the foregoing section "Lien on Property" and agrees to abide by it and all other parts of the Village of Lyndonville Water Ordinances and terms of this application.
